Minnesota 4-H Dog Show Guide

Foreword

This publication is a guide for 4-H'ers, 4-H leaders, county extension agents, show managers, and parents.

It is designed to establish uniform regulations and procedures for the 4-H Dog Project and events throughout the state. Please use this guide when setting up shows and establishing show rules.

Objectives

The purpose of the dog project is to help 4-H boys and girls:

- Develop leadership, initiative, self-reliance, and sportsmanship.
- Experience the pride and responsibility of being involved with a dog.
- Learn a greater love for animals and develop a humane attitude toward them.
- Prepare for citizenship responsibilities by working together in groups and supporting community dog projects and activities.

4-H Name and Emblem

The use of the name and emblem of 4-H is regulated by Federal Law. This law states that only activities or programs under supervision of the Cooperative Extension Service may use the name and emblem of 4-H. Any district, area, or state 4-H dog show must have the approval of the state 4-H office.

Shows sponsored by other organizations and shows that do not provide separate classes for 4-H'ers are not permitted to use the name and emblem of 4-H. In such cases, the title "junior dog show" or a similar name should be used.

General Regulations

- To insure that dogs are eligible to compete, proof of current rabies and parvo-virus vaccination must be presented to the veterinarian or show committee on registration day. The DHL is also highly recommended.
- Any abuse of dogs on the grounds or in the ring will result in disqualification.
- No dog in season will be allowed to show in showmanship or obedience.

Ownership

The 4-H member does not need to own the dog, but should have a signed certificate stating that the 4-H member has trained, groomed and cared for the dog since April 1 of the current year. The 4-H member must be in the Dog Project and carry the dog as a project to exhibit.

SHOWMANSHIP

Showmanship gives each 4-H'er the opportunity to show off his dog and himself to the best of his ability. Judging is based on the 4-H'er's ability to groom and show his dog by breed standards. Conformation of the dog is not evaluated in showmanship.

Class Descriptions

Junior Novice — 13 years and under (as of January 1). Judging is based entirely on the member's ability to groom and show the dog by breed standards. A crossbred dog should be shown and groomed by the breed standard it most resembles.

Junior Open — 4-H members who have achieved a blue ribbon in Junior Novice must move to this class.

Senior Novice — 14 years and over (as of January 1). Judging is based on the member's ability to groom and show the dog by breed standards. A crossbred dog should be shown in and groomed according to the breed standard it most resembles.

Senior Open — 4-H members who have achieved a blue ribbon in Senior Novice must move to this class.

Showing Tips for the 4-H'er

- Use a show leash when showing a dog. The show lead or leash will serve both as a collar and a leash. Remove all other collars. The lead is usually made out of a nylon material, although some are made of leather with a thin chain. There are many different types. Use a lead that suits your dog. The color is optional. The 6-foot obedience leather lead is not acceptable.
- Place the show leash around the dog's throat so it can be tightened without choking the animal. Position the collar portion of the leash around the neck, just behind the ears. This will allow you to control your dog.
- It is the responsibility of each 4-H'er to groom his own dog unless the dog requires special grooming. Since grooming is part of the learning experience in the dog project, it is important to learn why each breed of dog requires a special cut.
- Remember to always be prepared before the show. The judge has the right to ask questions about your dog and project.
- Your appearance is very important in Showmanship. The type of clothing is not specified, but should be neat. It is best to wear a simple oxford or canvas shoe.
- Be able to move your dog in a straight and even gait working together as a team. Be alert and keep your eyes on the judge so you can react with the least amount of hesitation. Avoid putting yourself between the dog and the judge. Any unnecessary jerking, pulling, or extremely loud commands are not acceptable.
- The judge will examine each dog individually for grooming. When setting up your dog for the individual examination or when in line, always try to stack or position your dog according to breed standards. If you have a mixed breed, try to determine the breed it most closely resembles and use that breed standard.

- Each 4-H'er and dog do a pattern chosen by the judge from the four main patterns shown in this guide. All 4-H'ers should make themselves familiar with these patterns.
- Remember that good sportsmanship is important. Accept the judge's decision graciously. Anyone who feels a decision was unfair should file a complaint with the show committee.

Summary

In Showmanship, the 4-H'er and the dog are being judged as a team. It is important that both are well-groomed and prepared for the day's events. Be sure to know the dog well to answer any questions the judge may ask. Remember, the judge's decision is final. Above all, remember to be a good sport and have a good time!

SHOWMANSHIP PATTERNS

"T" PATTERN

(Judge will indicate to turn right or left to start)

"L" PATTERN

Class Descriptions

Beginner A — For 4-H'ers with dogs in their first year of training at home or in an organized class. 4-H'ers working with the same dog may participate in this class for only one year. Dogs with more than one year of training and those who have achieved one leg of their CD are ineligible.

Beginner B — For 4-H'ers with previous obedience training experience who are working with a new dog. 4-H'er's working with the same dog may participate in this class for only one year.

Graduate Beginner — For dogs with no training beyond this level. Dogs will perform the Long Sit, Long Down, Stand for Examination, and Recall Off Lead. No dogs can stay in this class more than two years or after receiving a blue ribbon at the State Show level.

Novice — For 4-H'ers and dogs with two or more years of obedience training. No dogs can stay in this class more than two years or after receiving a blue ribbon at the State Show level. A dog with a CD is ineligible for this class.

Graduate Novice — 4-H'ers and dogs who have received a blue ribbon in the Novice class or those members who wish to enter due to previous training. No dog can stay in this class more than two years or after receiving a blue ribbon at the State Show level. Dogs with a CDX are ineligible.

Open A — 4-H'ers may participate in this class for no more than two years or until receiving a blue ribbon at the State Show level. A dog with a CDX is ineligible.

Open B — For 4-H members and dogs who have participated in open class for more than two years or those with dogs having CDX.

Utility — Unrestricted

Brace — For 4-H'ers with two dogs or for those who wish to "team up" and train a brace. No particular level of training is required or prohibited in this class. The Graduate Beginner score card is used in judging.

Four-Dog Team — For 4-H'ers who wish to work together in training their dogs to perform as a unit of four. The Heel on Leash and Figure Eight will be done on lead. The Stand for Examination and the Recall will be done off lead. Each dog will be called individually. The one minute Long Sit and three minute Long Down will be done with the handler in sight. The Graduate Beginner score card will be used in judging.

OBEDIENCE

Obedience gives 4-H'ers the opportunity to show off their dogs to the best of their ability. Judging is based on the ability of the handler and dog to perform standard exercises.

General Guidelines

- Do not allow dogs and handlers to enter the show before the classes.
- Baiting dogs with food and/or squeakers is not allowed.
- A 4-H'er may enter only one dog per class.

Scoring

The state 4-H Dog Program Development Committee has adopted the curve system of scoring in place of the old point scoring method. It is suggested that all counties use this curve scoring method.

REGULATIONS FOR PERFORMANCE

Ring

The suggested size ring for an indoor show is 35 feet wide and 50 feet long for all obedience classes. The floor should have a surface or covering that provides firm footing for the largest dogs. Rubber or a similar nonslip material must be laid for the take off and landing at all jumps unless the surface does not require it. This should be determined by the judge.

At an outdoor show or trial, the rings should be about 40 feet wide and 50 feet long. The ground must be clean and level, and any grass should be cut short. For open classes, the show committee is responsible for providing an appropriate place for the handlers to go completely out of sight of their dogs. If inclement weather at an outdoor trial necessitates the judging of obedience under shelter, the ring size requirement may be waived.

Use of Leash

Keep all dogs on leash except when in the obedience ring. Bring dogs into and take them out of the ring on leash. Dogs may be kept on leash in the ring when brought in to receive awards and when waiting in the ring before and after the group exercises. Leave the leash on the judge's table between the individual exercises and during all exercises. The leash may be of fabric or leather and must be six feet in length.

Collars

Dogs in the obedience ring must wear well-fitting slip collars of chain or leather. Fancy collars, spiked collars, other special training collars, or collars that are either too tight or so large that they hang down unnecessarily in front of the dogs are not permitted. There should be no other objects hanging from the collar.

Misbehavior

Misbehavior includes any disciplining of your dog in the ring, display of fear or nervousness by the dog, or uncontrolled behavior of the dog such as snapping, barking, relieving itself in the ring, or running away from its handler. Whether the misbehavior occurs during an exercise, between exercises, or before and after judging, it must be penalized according to the seriousness of misbehavior. The judge may even expel or excuse the dog from further competition.

Commands and Signals

When a command or signal is mentioned in these guidelines, it means that only a single command or signal may be given by the handler. Any extra commands or signals must be penalized, except when the guidelines specify either a command or a signal or both. When both a command and signal are given, they must be made simultaneously. When a signal is permitted and given, it must be a single gesture with one arm and hand only. The arm must immediately be returned to a natural position. Delay in following a judge's order to give a command or signal must be penalized, unless the delay is directed by the judge because of some distraction or interference.

Loud commands by handlers to their dogs create a poor impression of obedience and should be avoided. Shouting is not necessary, even in a noisy place, if the dog is properly trained to respond to a normal tone of voice. Commands that in the judge's opinion are excessively loud will be penalized.

EXPLANATIONS OF EXERCISES

Heel Position

The Heel Position can be used whether the dog is sitting, standing or moving. Heel means that the dog should be in straight alignment and facing the same direction as the handler. The dog should be close to the handler's left leg without crowding. This permits the handler freedom of movement. The area from the dog's head to shoulder should be in line with the handler's left hip.

Heel on Leash

Heel on Leash is a test of how well the handler and his dog follow the judge's commands of forward, halt, right turn, left turn, about turn, normal, slow, fast, and figure eight. The dog starts out in Heel position.

- **Forward** — Handler and dog should walk briskly, in a natural manner, with the dog on a loose leash. The dog should walk in Heel position.
- **Halt** — The handler will stop and his dog will sit straight and smartly in Heel position. This should be done without a command or signal.

- **Right turn** — The handler pivots on the ball of his right foot and brings the left foot around smoothly and close to the ground. The dog should turn with the handler. This should be done squarely.
- **Left turn** — This is the opposite of a right turn.
- **About turn** — The handler hesitates on the left foot and pivots on the balls of both feet, then steps smartly on the left foot. The handler will do a right about turn in all cases.
- **Normal** — The handler and dog should walk at a normal pace.
- **Fast** — The handler and dog must run, moving forward at a noticeably accelerated pace.
- **Figure eight** — The handler and dog should walk in Heel position between two stewards who should stand about 8 feet apart. If there is only one steward, the contestant should walk around and between the judge and the steward. The figure eight in the Novice classes should be done on a leash. The handler may choose to go in either direction, and should go twice around with at least one halt during and another halt at the end of the exercise.

These orders may be given in any sequence and may be repeated if necessary. The judge will give the order "forward" in order to start the exercises, and "exercise finished" before going on to the figure eight.

During these exercises, the leash may be held in either or in both hands, provided the hands are in a natural position. The leash must not be used to signal or give assistance to the dog or a penalty will result.

Stand for Examination

In Stand for Examination, the handler poses his dog in order for the judge to examine him.

The judge will first give the order for examination. Then the handler will pose his dog off leash and command and/or signal him to stay. The handler will then walk 6 feet in front of the dog, turn, and face him. The handler may use the method of his choice for posing the dog, within a reasonable time limit, before giving the command and/or signal to stay.

The judge will approach the dog from the front and will touch its head, back, and hindquarters only. The judge will then give the "back to your dog" command. The handler will then return to his dog and stand in Heel position. The dog must remain in standing position until the judge says "exercise finished". The dog must show no shyness or resentment during this exercise.

Heel Free

This should be executed in the same manner as Heel on Leash, except that the dog is off the leash. Heeling in both Novice and Open classes is done in the same manner, except that in the Open classes all work is done off leash, including the figure eight.

Recall and Drop on Recall

In recall, the handler walks 35 feet in front of his dog and then, upon order of the judge, calls or signals his dog to him.

The judge will first order the handler to "leave your dog". The handler will then walk 35 feet in front of the dog and then turn and face him. The judge will then order the handler to "call your dog". The handler then calls or signals his dog, which in the Novice class means the dog must come straight in at a brisk pace and sit straight, then center itself in front of the handler's feet, close enough for the handler to touch its head without moving his feet or stretching forward. The dog should not touch the handler or sit between his feet. The judge will then order "finish", and upon command and/or signal from the handler, the dog will go to the Heel position and sit. The method by which the dog goes to Heel position is optional provided that it is done smartly and the dog sits straight.

Long Sit

For the Long Sit in the Novice classes, the handler leaves his dog for 1 minute. This exercise is done by all the competing dogs of one class, or, if there is only one judge, all the classes together (provided that there are no more than 15 dogs in the group). If there are many dogs, they may be broken into groups of no less than 6 or more than 15.

The handlers sit their dogs and the judge orders "leave your dog". The handlers command and/or signal their dogs to stay, then immediately go to the opposite side of the ring, and line up facing their dogs. After 1 minute, the judge orders "back to your dogs". The handlers walk back to their dogs, walk around and in back of them to Heel position. The dogs must not move from sitting position until the judge says "exercise finished".

Long Down

The Long Down in the Novice classes is done in the same manner as the Long Sit, except that instead of sitting their dogs the handlers will down their dogs, without touching their collars. The judge will order the handler back after 3 minutes. The dogs must stay in the down position until after the judge says "exercise finished".

Long Sit and Long Down in Open Classes

The exercises in the Open classes are performed in the same manner as the Novice classes, except that after leaving their dogs the handlers must cross to the opposite side of the ring, leave the ring in single file as directed by the judge, and go to a designated area, out of their dog's sight.

Handlers must remain in this designated area until called by the judge — 3 minutes in the Long Sit and 5 minutes in the Long Down. On order from the judge, the handlers will return to the ring in single file, reversing their outgoing order. Then they will line up facing their dogs at the opposite side of the ring, and return to their dogs on order from the judge.

Retrieve on the Flat

In this exercise, the dog must retrieve a dumbbell by following a sequence of orders. The judge gives these orders to the handler who in turn relays them to the dog. The dog starts out in sitting position.

- **Throw it** — The handler gives the command and/or signal to stay using his free hand only. Then he throws the dumbbell and waits for the judge's next order.
- **Send your dog** — The handler gives the command or signal for his dog to retrieve the dumbbell.
- **Take it** — The handler give the command and signal and takes the dumbbell away.
- **Finish** — The handler gives the command or signal to Heel as in Recall.

The dog should not move forward to retrieve or deliver the dumbbell when he returns until the handler commands or signals him.

The retrieve should be executed at a fast trot or gallop, without unnecessary mouthing or playing with the dumbbell. The dog should sit straight, centered immediately in front of its handler's feet and close enough for the handler to take the dumbbell without moving either foot or stretching forward. The dog should not touch the handler or sit between his feet.

The dumbbell must be approved by the judge and should be made of one or more pieces of solid, heavy hardwood. It may be unfinished, coated with a clear finish, or painted white. It should have no decorations or attachments, but may bear an inconspicuous mark for identification.

The size of the dumbbell should be proportionate to the size of the dog. The judge should require the dumbbell to be thrown again if it is thrown too short a distance, too far to one side, or against the ringside.

Retrieve over the High Jump

This exercise is executed in the same manner as the Retrieve on the Flat, except that the dog must jump the High Jump both going and coming. The High Jump should be jumped clear. The jump should be approximately one and one-half times the height of the dog at the withers, with a minimum height of 8 inches and a maximum height of 36 inches.

The handler can stand any reasonable distance from the High Jump, but must stay in the same spot throughout the exercise.

The side posts of the High Jump should be 4 feet high and 5 feet wide. It should be constructed to provide adjustments in increments of two inches, starting from 8 inches and going to 36 inches. It is suggested that the jump have a bottom board 8 inches wide, including the space from the bottom of the board to the ground or floor, plus three other 8-inch boards, one 4-inch board, and one 2-inch board. A 6-inch board may also be provided. The jump should be painted a flat white. The width in inches should be painted on each side of each board in black 2-inch numbers. The number on the bottom board represents the distance from the ground or floor to the top of the board.

SUGGESTED CONSTRUCTION OF HIGH JUMP

ALL MEASUREMENTS ARE IN INCHES.

Broad Jump

In the Broad Jump the handler should stand with his dog in front of and within 10 feet of the jump. The dog should be in Heel position. When the judge orders "leave your dog", the handler will give his dog the command and/or signal to stay and go to a position facing the right side of the jump. The handler should place his toes about 2 feet from the jump and anywhere between the first and last hurdle. On order from the judge, the handler should give the command or signal to jump and the dog should clear the entire distance of the Broad Jump without touching and without further command or signal. While the dog is in midair, the handler should change his position by executing a right angle turn. The dog should return to a sitting position immediately in front of the handler. On order from the judge, the handler will give the command to Heel and the dog should finish as in Recall.

The Broad Jump should consist of four hurdles built to telescope for convenience. It should be made of boards about 8 inches wide, the largest measuring about 5 feet in length and 6 inches high at the highest point. All hurdles should be painted flat white.

The hurdles should be arranged in order of size and should be evenly spaced to cover a distance equal to twice the height of the high jump as set for a particular dog, with the low side of each hurdle and the lowest hurdle nearest the dog. The four hurdles should be used for a jump of 52 to 72 inches, three for a jump of 32 to 48 inches, and two for a jump of 16 to 18 inches. The highest hurdles should be removed first.

SUGGESTED CONSTRUCTION OF BROAD JUMP

THE BROAD JUMP MUST BE PAINTED
FLAT WHITE.

ALL MEASUREMENTS ARE IN INCHES.

Scent Discrimination

In these two exercises the dog must select by scent alone and retrieve an article that has been touched by its handler. The articles should be provided by the handler. They should consist of two sets, each composed of five identical articles not more than 6 inches in length, and may be items of everyday use. One set should be made entirely of rigid metal and one of leather, so that nothing but leather is visible except for the minimum amount of thread or metal necessary to hold the article together. The articles in each set must be legibly numbered and approved by the judge.

The handler will present all 10 articles to the judge. The judge will designate one article from each of the two sets and will make a written note of the numbers of the two articles he selects. These two articles should be placed on a table or chair in the ring until picked up by the handler who will hold only one article in his hand at a time. The handler's scent may be imparted to the article only from his hands, which must remain in plain sight. The handler can choose which article to use first.

Before the start of the Scent Discrimination exercises, the judge or steward will handle each of the remaining 8 articles and place them at random in the ring about 6 inches apart. The handler will stand about 15 feet from the articles with the dog sitting in the Heel position. On order from the judge, the handler will place his article on the judge's book or worksheet. The judge places it, without touching it with his hands, with the other articles. The handler and his dog will face away from the articles that are on the ground or floor from the time the judge takes the handler's article until he gives the order "send your dog".

On order from the judge to "send your dog", the handler and his dog will execute a right about turn to face the articles and the handler will simultaneously give the command or signal to retrieve. The dog will not sit again after turning, but will go directly to the articles. The handler may give his scent to the dog by gently touching the dog's nose with the palm of one open hand, but this may only be done while the dog is sitting at Heel and the arm and hand must be returned to a natural position before handler and dog turn to face the articles. The dog should go at a brisk pace to the articles. He may take any reasonable time to select the right article, provided he works continuously and does not pick up any article other than the one with his handler's scent. After picking up the right article, the dog should return at a brisk pace and complete the exercise the same way as the Retrieve on the Flat.

The same procedure is followed in each of the two Scent Discrimination exercises. Should a dog retrieve the wrong article in the first exercise, it will be placed on the table or chair, and the handler's article must also be taken from the remaining articles. The second exercise will then be completed with one less article in the ring.

TIPS TO SET UP SHOW

- Organize your show committee into smaller committees. Delegate authority to adult volunteers and junior leaders who can oversee various areas (e.g., food, ring, registration, set-up, and clean-up committees).
- Two or three days before the show, check with each committee chairperson to see that everything is ready. This saves time and frustration on the day of the show. Allow ample set-up time before registration begins. It becomes almost impossible to set up once the entrants begin to arrive.
- Advance registration is very helpful, if it can be arranged. Have sheets drawn up for each class and armbands numbered and ready to give out.

- Be sure to have clean-up supplies on hand for the accidents that occur. A can of disinfectant is a must.
- Publicize your show. Use local newspapers, radio and TV stations. Make posters and distribute flyers to surrounding counties.
- A list of judges is available from the your County Extension office. It includes the counties that they have judged. In order to find out the judge's qualifications, contact those counties.
- Before the show, tell the judge what level of development to expect.
- Not all dog shows will offer purple, red and white ribbons. This is the decision of various show committees. It is suggested, however, that all 4-H'ers receive a ribbon. If a dog relieves itself in the ring, an automatic white ribbon is recommended.

This handbook was prepared and approved by the state 4-H Dog Program Development Committee. Appreciation is extended to the Kansas 4-H Program for the use of its project material in the preparation of this guide.

EXTRA HELP

Ralston Purina, the national 4-H Dog sponsor, will furnish show supplies, as well as films and booklets free of charge. For a list of available supplies write:

Supply Service Section
Ralston Purina Company
Checkerboard Square
St. Louis, Missouri 63118

Other companies that offer free booklets and information are listed below:

Gaines Research Co.
250 North Street
White Plains, NY 10625

Quaker Oats Co.
Merchandise Mart Plaza
Chicago, IL 60654

Tuffy's — Division of Starkist Food, Inc.
Box 190
Perham, MN 56573

To get a regulations booklet from the American Kennel club (AKC), write:

The American Kennel Club, Inc.
51 Madison Avenue
New York, NY 10010

Issued in furtherance of cooperative extension work in agriculture and home economics, acts of May 8 and June 30, 1914, in cooperation with the U.S. Department of Agriculture. Norman A. Brown, Director of Agricultural Extension Service, University of Minnesota, St. Paul, Minnesota 55108. The University of Minnesota, including the Agricultural Extension Service, is committed to the policy that all persons shall have equal access to its programs, facilities, and employment without regard to race, creed, color, sex, national origin, or handicap.
